

**RSGE-24**

# SWITCH 19" 24X 1GB/S LAN

## PRODUCT FEATURES:

- unmanaged switch with 24 1Gbps ports
- metal housing
- 3 operating modes: Standard, VLAN, Extend
- includes mounting brackets necessary for mounting the switch in a 19" rack

## PRODUCT SPECIFICATION:

|                            |                                                                                                                     |
|----------------------------|---------------------------------------------------------------------------------------------------------------------|
| Number of Ethernet ports   | 24                                                                                                                  |
| Ports specification        | 24x 1000BASE-T, 24x RJ45 100BASE-TX                                                                                 |
| Maximum network link speed | 1 Gbps                                                                                                              |
| Network Link Type          | Ethernet                                                                                                            |
| Size                       | 19",                                                                                                                |
| PoE support                | No                                                                                                                  |
| Bandwidth                  | 48 Gbps                                                                                                             |
| MAC address table          | 8K                                                                                                                  |
| Cooling                    | Vents, Passive                                                                                                      |
| Power Requirements         | 100-240V AC                                                                                                         |
| Power consumption          | 13,47 W                                                                                                             |
| Surge protection           | 2 kV                                                                                                                |
| Work signal                | LED                                                                                                                 |
| Wired standards            | Gigabit Ethernet, IEEE 802.3i 10Base-T, IEEE 802.3u 100Base-TX, IEEE 802.3ab 1000Base-T, IEEE 802.3x (Flow-Control) |
| Functions                  | Extend mode, VLAN                                                                                                   |
| ICT height                 | 1 U                                                                                                                 |
| Dimensions                 | 282 x 178 x 44 mm                                                                                                   |
| Weight                     | 1,4 kg                                                                                                              |
| Operating temperature      | from 0 up to 50 °C                                                                                                  |
| Environment temperature    | from -20 up to 70 °C                                                                                                |
| Environment humidity       | from 5 up to 95 %                                                                                                   |
